\* MISSION COORDINATOR – serves as FRO at a Mission Base.

The FRO will provide the pilot with an FRO Release Number to be recorded by the pilot on the NER Form 2 at the start of each flight and identify the Mission Symbol/Mission Number also to be recorded. The FRO will record the required data on CAPF 99. The pilot is to verify the aircraft status, release number and date/time when the release is made. After the flight, the pilot is to complete the necessary paperwork, make sure that the aircraft is clean inside and out, refueled, and ready for the next user. The pilot shall provide the FRO with the actual flight times for the CAP Form 99, fuel status, and any noted discrepancies.
